**Argo Exploration Limited**  
**Directors' report**  
**31 December 2010**

The directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'consolidated entity') consisting of Argo Exploration Limited (referred to hereafter as the 'company' or 'parent entity') and the entities it controlled for the half-year ended 31 December 2010.

**Directors**

The following persons were directors of Argo Exploration Limited during the whole of the financial half-year and up to the date of this report, unless otherwise stated:

Dr. Hugh K. Herbert  
Mr Justin G Hondris  
Ms Meredith A Bird

**Principal activities**

During the financial half-year the principal consulting activities of the consolidated entity consisted of exploration and development of mineral resources emphasising copper, gold and uranium.

**Review of operations**

The loss for the consolidated entity after providing for income tax amounted to \$669,609 (31 December 2009: profit of \$844,282).

Refer to the separate operational and technical reviews of operation following this Directors' report.

**Significant changes in the state of affairs**

There were no significant changes in the state of affairs of the consolidated entity during the financial half-year.

**Auditor's independence declaration**

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out on page 7.

This report is made in accordance with a resolution of directors, pursuant to section 306(3)(a) of the Corporations Act 2001.

On behalf of the directors

## REVIEW OF OPERATIONS

### HIGHLIGHTS

#### ***Intercept Hill (EL4164)***

##### **Argo – Xstrata Copper Joint Venture**

- 3-D modeling of Argo's detailed gravity and aeromagnetic data by Xstrata Copper Exploration Pty Ltd refined a number of drill targets including Oak Dam South, Winjabbe East and Canegrass South Prospects (Fig. 1).
- Regional 3-D geophysical modeling by Xstrata Copper is continuing.
- Cultural heritage clearance of proposed drill sites at Oak Dam South, Canegrass South and Winjabbe East Prospects undertaken. The elected survey party cleared several key drill sites at both Oak Dam South and Winjabbe East, but rejected proposed sites at Canegrass South prospects.
- A second cultural heritage clearance survey, involving Kuyani representatives of the Kokatha Uwankara Native Title Claimant Group, endorsed all sites cleared by the elected survey party.
- A meeting of key persons is being sought in an attempt to negotiate controlled drill access to Canegrass South prospect.
- Drilling is scheduled to commence at Oak Dam South Prospect and move to Winjabbe East during Q1, 2011. All necessary access and drilling permits, together with cultural heritage clearances, have been obtained.
- A magnetotelluric (MT) survey over the Emmie Bluff (Xstrata Copper/Gunson Joint Venture) and Argo's adjoining Emmie North Prospects was completed. Argo has been advised that the broad-spaced orientation MT survey failed to discriminate any clear targets in the altered basement rocks at its Emmie North Prospect.
- Xstrata Copper has commissioned regional 3-D geophysical modeling of EL4164 (Argo-Xstrata Copper JV) and adjoining EL4187 (Xstrata Copper-Gunson Resources JV) to facilitate comparative ranking of geophysical targets within the EL's against constant modeling parameters. Preliminary results are anticipated by Q1, 2011 and when available will be fully evaluated.
- Semi-quantitative (HyLogger™) mineral analysis of selected core intervals from Emmie North, Winjabbe East and Canegrass North Prospects, is continuing at Primary Industries and Resources South Australia (PIRSA).
- Re-logging of all Argo drill holes by geologists from Xstrata Copper completed.

#### ***Toondulya EL4284***

- EL4284 renewed until 14<sup>th</sup> July 2011 with minimum statutory expenditure being \$140,000.
- Modeling of circular gravity feature in north-west sector of EL completed by Xstrata Copper. Results of modeling currently being evaluated.

## **INTERCEPT HILL EL4164**

### **Magnetotelluric (MT) Survey**

A magnetotelluric survey over the contiguous, fertile Emmie North-Emmie Bluff iron oxide alteration system was completed by Quantec Geoscience Pty Ltd on behalf of Xstrata Copper Exploration. This Survey covers ground in EL4164 (Argo Exploration) and the adjoining EL4187 (Gunson Resources).

The design parameters were 500m spaced stations on 1000m spaced SW-NE trending Lines. The EL4164 component of the survey comprised 35 stations for 21.8 line kilometers.

Argo has been advised that the MT survey appears to define the basement unconformity, with a very conductive cover sequence on a very resistive basement. Layered variation is apparent within the cover sequence, the particularly conductive zones of which appear to relate to the Whyalla Sandstone and Tapley Hill Formation.

Features within the basement are noted as being very subtle and it is debatable whether these are “real” features as opposed to inversion artefacts. The MT failed to discriminate any stand-out targets.

### **Drill Site Clearance, Oak Dam South, Canegrass South and Winjabbie East Prospects**

Two cultural heritage clearance surveys of drill sites at Oak Dam South, Canegrass South and Winjabbie East Prospects were undertaken.

The first survey involved eight elected representatives of the Kokatha Uwankara Native Title claimant group with sites at Oak Dam South and Winjabbie East being cleared for drilling; no sites were cleared at Canegrass South Prospect.

The second survey, involving Kuyani representatives of the Kokatha Uwankara Native Title Claimants endorsed those sites cleared by the elected survey members.

Argo is seeking a meeting with key claimant members to attempt to negotiate supervised drill access to Canegrass South Prospect.

### **Drilling Program**

A further campaign of diamond drilling is scheduled to commence Q1, 2011. The first prospect to be drilled is Oak Dam South for which Argo was awarded PACE funding support in the amount of \$60K. Depending upon results, further drilling at Oak Dam South may follow on, or the rig relocated to Winjabbie East to drill that prospect.

All necessary entry and equipment permits have been obtained and notice has been served on the landholder.

### **3-D Modeling of Geophysical Data**

Xstrata Copper's systematic modeling of Argo's geophysical data sets, to identify and refine further potential drill targets within EL4164, is ongoing. In addition, Xstrata Copper are constructing a 'regional' 3-D model of detailed geophysical data covering EL4164 (Argo-Xstrata Copper Joint Venture) and adjoining EL4187 (Gunson Resources-Xstrata Copper Joint Venture) to provide a coherent model, based on uniform parameters, against which various defined targets may be comparatively ranked. This modeling is expected to be completed Q1, 2011.

### **Semi Quantitative Mineralogical Analysis**

Semi-quantitative (HyLogger™) mineral analysis of selected core intervals from Emmie North, Winjabbie East and Canegrass North Prospects, is continuing at Primary Industries and Resources South Australia (PIRSA). This work has provided a large volume of data which is currently being evaluated.

## **TOONDULYA EL4284**

EL4284 renewed until 14<sup>th</sup> July 2011 with minimum statutory expenditure being \$140,000.

Modeling of the circular gravity feature in north-west sector of EL has been completed by Xstrata Copper. Results of modeling are currently being evaluated. Once completed, mobilization to the tenement to conduct planned orientation biogeochemical surveying, together with soil and lag sampling, will occur.

The objectives of the orientation survey are twofold: (1) to evaluate the efficacy of alternative sample media to calcrete for geochemical assessment of dune covered areas comprising the bulk of EL4284, as a prelude to more exhaustive geochemical sampling, and (2) to assess whether there is any geochemical expression associated with modeled gravity features.

## **PANTHEON RESOURCES PLC** **(Argo principal shareholder)**

The operator of the Tyler County Joint Venture, Vision Gas Resources LLC ("Vision"), has informed Pantheon of further progress at the planned Kara Farms #1H well ("KF#1H"). The Texas Department of Transportation has granted the Joint Venture two permits essential for the final stages both for the completion of the site works for KF#1H and, separately, for a natural gas export pipeline. Rig availability has continued to be tight but there are now signs of this easing to some extent. Vision continues actively to pursue a drilling slot with the intention of spudding the KF#1H well at the earliest opportunity. Once Pantheon is informed by Vision of further developments at KF#1H, it will inform the market.

Jay Cheatham, CEO of Pantheon stated:

*"Gaining the approvals necessary to complete final work on the KF#1H drilling location denotes an important step for the Joint Venture and its plans to drill a second well on its exciting Tyler County acreage. Recently, rig utilisation in the Barnett and Haynesville shale plays has witnessed a small decline leading to a modest improvement in rig availability. The outlook for natural gas prices has also improved."*

## **CORPORATE**

Cash reserves at the end of the December Half stood at \$1,452,358 with no secured debt. The value of the Pantheon Resources Plc investment stood at \$2,474,715 at an exchange rate of 0.6585.

The Board continues to examine quality commercial opportunities to expand its exploration/development portfolio.

**Argo Exploration Limited**  
**Notes to the financial statements**  
**31 December 2010**

**Note 1. Significant accounting policies**

These general purpose financial statements for the interim half-year reporting period ended 31 December 2010 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2010 and any public announcements made by the company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the policies stated below.

**Comparative figures**

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial period. The half-year financial period refers to 1 July 2010 to 31 December 2010.

**New, revised or amending Accounting Standards and Interpretations adopted**

The consolidated entity has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

**Note 2. Operating segments**

*Identification of reportable operating segments*

The consolidated entity is organised into one operating segment, exploration for base and precious metals in Australia. This operating segment is based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources.

The information reported to the CODM is on at least a monthly basis.

**Note 3. Other income**

**Argo Exploration Limited**  
**Notes to the financial statements**  
**31 December 2010**

**Note 10. Deed of cross guarantee**

The following entities are party to a deed of cross guarantee under which each company guarantees the debts of the others:

Argo Exploration Limited  
Olympic Resources Limited

By entering into the deed, the wholly-owned entities have been relieved from the requirement to prepare a financial report and directors' report under Class Order 98/1418 (as amended) issued by the Australian Securities and Investments Commission ('ASIC').

The above companies represent a 'Closed Group' for the purposes of the Class Order, and as there are no other parties to the Deed of Cross Guarantee that are controlled by Argo Exploration Limited, they also represent the 'Extended Closed Group'.

**Note 11. Events occurring after the reporting date**

No matter or circumstance has arisen since 31 December 2010 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

**Argo Exploration Limited**  
**Directors' declaration**

In the directors' opinion:

- the attached financial statements and notes thereto comply with the Corporations Act 2001, Australian Accounting Standard AASB 134 'Interim Financial Reporting', the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes thereto give a true and fair view of the consolidated entity's financial position as at 31 December 2010 and of its performance for the financial half-year ended on that date;
- there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable; and
- at the date of this declaration, there are reasonable grounds to believe that the members of the Extended Closed Group will be able to meet any obligations or liabilities to which they are, or may become, subject by virtue of the deed of cross guarantee described in note 10 to the financial statements.

Signed in accordance with a resolution of directors made pursuant to section 303(5) of the Corporations Act 2001.

On behalf of the directors

## **Independent Auditor's Review Report To the Members of Argo Exploration Limited**

We have reviewed the accompanying half-year financial report of Argo Exploration Limited ("the Company"), which comprises the consolidated financial statements being the statement of financial position as at 31 December 2010, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, a statement of accounting policies, other selected explanatory notes and the directors' declaration of the consolidated entity, comprising both the Company and the entities it controlled at the half-year's end or from time to time during the half-year.

### **Directors' responsibility for the half-year financial report**

The directors of the Company are responsible for the preparation and fair presentation of the half-year financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Act 2001. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the half-year financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

### **Auditor's responsibility**

Our responsibility is to express a conclusion on the consolidated half-year financial report based on our review. We conducted our review in accordance with the Auditing Standard on Review Engagements ASRE 2410: Review of Interim and Other Financial Reports Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the Corporations Act 2001 including giving a true and fair view of the consolidated entity's financial position as at 31 December 2010 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134: Interim Financial Reporting and the Corporations Regulations 2001.

As the auditor of Argo Exploration Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Independence**

In conducting our review, we complied with the independence requirements of the Corporations Act 2001.

### **Conclusion**

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Argo Exploration Limited is not in accordance with the Corporations Act 2001, including:

- a giving a true and fair view of the consolidated entity's financial position as at 31 December 2010 and of its performance for the half-year ended on that date; and
- b complying with Accounting Standard AASB 134: Interim Financial Reporting and Corporations Regulations 2001.
